

Copper Cove Association Equestrian Trail Committee

Monthly Meetings, every first Wednesday @6:30pm at Copper Cove Association Black Creek Hall

Meeting Minutes; Wednesday March 7, 2018, Black Creek Hall, 0630pm, Members Present (5):

Progress is being made on P&E trail improvements. A large area of poison oak growth previously identified has been removed by a volunteer, and photos of results are on the ETC Facebook page. An old mound of dirt on P&E trail still needs flattening near the end of Buffalo Road.

Several new Copper Cove Trail signs have gone up and look great! Sporadic work parties will take place to get a decent amount of Trail Signs up this month.

Help will be needed from ETC Members to spend some time at the ETC Table/area as part of our Horses in the Community Educational Message for what appears to be a still planned April 7th Spring Fling Event. A schedule for table volunteers can be made. Let Mary know your availability.

ETC Members are requested to generate ideas in the form of communication materials that can be reproduced by the Office, like Posters; Flyers; written materials for the April and future events. Mary has a Banner Idea/template for the ETC Table that was outstanding, and would like more ideas from everyone on what materials can be made available.

Committee located a large quantity of aluminum horseshoes as a donation for a craft/project area for children at the April and/or future ETC Events. How to order the necessary Craft Supplies through the Office was covered.

Gary Whitley dropped off a binder of material from past committee efforts for us to review. An ongoing suggestion is to establish a Master Binder of this material in the CCLTOA Office for historic reference.

A great idea to have a P&E Trail Clean Up Day was discussed, further discussion and a date needs to be set.

Meeting Adjourned@0720PM

Secretary, Howard Karlin
