1. The conduit is in for the electrical to the new fans under the gazebo. Carl (the Hot Dog Guy) offered to put in the electrical.
2. Approved the changes to the KIVA Rules. The Board will vote on the proposed changes which adds “no swimming from the boat docks from May 1 through October 1” plus other minor grammatical changes.
3. Will offer the Bird netting for sale at Dianna’s garage sale in June.
4. More reflectors will be placed on the docks.
5. New light is in on South side of KIVA.
6. 3 swim floats are needed for the swim platform.
7. Appears that the new misters are up.
8. An Estimate for NEV electrical vehicle charging stations revealed that each station would cost between \$378 to \$598 depending on volts: 36 volts \$378 and 48 Volts \$598. It was discussed that the current need for the charging station is very low and this project is not cost effective.
9. The new computer approved last year, is being installed today 4-4-2014.
